# PLANT NOW FOR THE

PLOWERS OF SPRING

Gift of

J. Horace McFarland Co.

Harrisburg, Penna.

May 1957

## About Ourselves and the Things

Our Office

## We Do

The Berryhill Nursery was established in August, 1907, at our present location, Berryhill and 13th streets, Harrisburg, Pa. We have growing in our grounds an assortment of the best trees, shrubs, vines and plants for this locality. Not only do we supply these plants, but our experience in their best uses is at the command of our customers, and we are equipped

to furnish plans for the laying out of home

grounds and estates.

A visit to our grounds will be most interesting, as there will be found a constant show of bloom from early spring until late fall. When possible, we like our patrons to make selections

of stock from the ground.

Our manager, Mr. W E. Hamilton, has had experience in the large nurseries and private estates of the East, while our superintendent, Mr. E. Morell, comes to us from Europe, where he had large experience in all branches of landscape work, giving us a combination of experience and ideas that will be found most helpful to our patrons.

TERMS.—Cash with order, except to parties known to us to be responsible. Remittance may be made by postal money order, draft on New York or express company's money order.

DELIVERY .- All nearby orders will be deliv-

ered free. Shipments to distant points will be delivered to freight or express company here, at which time our responsibility ceases. Slight packing charges to cover cost will be made on distant shipments.

Long distance Bell Telephone.

# The First Flowers of Spring

## SINGLE TULIPS

There is no more beautiful sight in early spring than beds of tulips, hyacinths and narcissi, and no flowers are so easy to cultivate. We recommend only the best varie-ties for outdoor use, and all bulbs are strictly first size.

# Special Rose Offer

# LADY GAY The Beautiful New Climbing Rose

By rare good fortune we have secured a quantity of large three year-old plants of the new Climbing Rose, "Lady Gay," from the introducer. Last year this beautiful Rose took first prize in London, and wherever it has been shown it has become a favorite. It is far superior to the old variety "Crimson Rambler," is a freer bloomer, and the beautiful glossy foliage remains green all through the summer. It grows rapidly, is perfectly hardy, remaining outdoors all winter without protection. The flowers are a

beautiful light pink, borne in large clusters, covering the entire vine throughout

June.

The plants we offer are not the little, delicate, tender stock which have disappointed so many rose lovers in their endeavors to have vinecovered piazzas, but strong, sturdy plants, with shoots 5 to 8 feet long which, if properly planted and watered, will cover the average piazza the first season. Ordinarily, plants of this size sell for \$2.50 each. We have a limited stock which we offer at the very low prices noted below to introduce "Lady Gay" to our friends.

Order promptly, before they are all gone

Price, \$1.25 each, \$10 for 10
